PROJECTS

My Collective Group- https://github.com/SaraMunir/myEmployeesManagement |
https://manage-my-group.herokuapp.com/

The app is a full stack MERN application with CRUD operation. The app was designed with inspiration from facebook more centered towards groups. The main goal behind this app is for users to be able to manage groups of any size that have the same common interest or a goal. Features: **1.** Allows users to create any number of groups. **2.** Create any number of members and set up their profile, assign roles. **3.** Allow users to create discussion poste, events.

- Made use of MongoDb for databases to store users information and activities in order to create, view Members, Discussions,Events etch..
- Used: React, MongoDb, NodeJs, CSS, Bootstrap.

Movie Maniax- https://github.com/jsanthos01/MovieManiax | https://movie-maniax.herokuapp.com/

Movie Maniax is a user-friendly movie search application built on MERN stack that allows users to search for movies, add movies to watchlist as well as to favorites list. Users can also add other users as their friend and view their favourite list, watchlist and reviews.

- Made use of API to access huge movie database and fetch according to users search input.
- Used: React, CSS, Bootstrap. MongoDb

Chronus Business- https://github.com/SaraMunir/PsdConversion | https://saramunir.github.io/PsdConversion/

Responsive PSD conversion website. As one of the most important part of website designing and developing is the conversion of PSD files to HTML format. This website is an exact recreation of the PSD file which is also fully responsive.

- Used HTML, CSS, JAVASCRIPT, jQUERY;
- Link for the psd file: https://raw.githubusercontent.com/SaraMunir/PsdConversion/master/home-page.jpg
